

Better engine oils

Power to protect. Power to perform.

TOP ATF G

TOP ATF G Formulated from highly quality paraffinic base oils and unique additive technology. This product has been designed to provide protection to critical parts by providing corrosion and oxidation resistance preventing the formation of deposits and varnishes. Suitable for use in Ford cars manufactured between 1976 to 1981 specifying a high friction fluid compliant with the Ford ESW-M2C33 Type F or G specification.

BENEFITS:

- Good seal compatibility.
- Excellent anti-wear characteristics.
- Suitable for other transmissions where a non-friction modified fluid is required.

Exceeds the following performance requirements:

- Ford ESW-M2C33F,
- G Suitable for use in automatic transmissions, torque converters, power steering units and hydraulic pumps specifying the Ford ESW-M2C33F and G specification.

TYPICAL ANALYSIS:

Appearance		Red
Density @ 15°C (kg/m ³)	ASTM D4052	0.86
Flash Point (°C)	ASTM D92	>180
Kinematic Viscosity @ 40°C (mm ² /s)	ASTM D445	40
Kinematic Viscosity @ 100°C (mm ² /s)	ASTM D445	7.9
Pour Point (°C)	ASTM D97	<-30
Viscosity Index	ASTM D2207	174
