Power to protect. Power to perform.

TOP COOLANT 05 GREEN

PRODUCT CODE: TO1051

TOP COOLANT HDX 05 GREEN is a monoethylene glycol based engine coolant concentrate formulated for optimum performance in heavy duty diesel engine applications but equally suitable for light duty use. It employs established inhibitor technology and is phosphate and amine free. BTC Classification Type 3EN.

BENEFITS:

- The inhibitors include organic acids in combination with borate, silicate and nitrite which are well known for their ability to provide excellent protection in heavy duty applications particularly where there is potential for cavitation erosion-corrosion to occur.
- uses sophisticated silicate stabilisation technology to eliminate the potential for formation of silicate gel often observed with inferior products whilst other additives ensure good compatibility with hard water and prevent the formation of scale that can result from use of hard water.
- is formulated primarily for use in heavy duty diesel engine applications but is equally suitable for light duty use.

Exceeds the following performance requirements:

- ASTM D3306
- ASTM D4985
- ASTM D6210
- SAE J1034
- BS 6580 (2010)
- AFNOR NF R15-601
- JIS K2234
- MAN 324
- CUMMINS CES14603
- LEYLAND
- FIAT / IVECO
- BR 637
- PERKINS
- JOHN DEERE
- can be used where **Glysantin® G05** was originally recommended.
