TOP COOLANT GLS 13

Long-life Coolant VW-TL 774 J (G13)

PRODUCT CODE: T04051

TOP COOLANT GLS 13

Is specially developed for specific cooling systems of V.A.G. (Audi, Volkswagen, Skoda, Seat) and meets the Volkswagen VW-TL 774 J (G13) specification.

BENEFITS:

- Based on ethylene glycol, organic inhibitors and silicate. This gives an excellent protection for metals in the cooling system against corrosion, specially magnesium- and aluminum alloys. Furthermore, the composition prevents scale formation and provides excellent protection against cavitation.
- Offers the best protection when applied in a concentration of 25 up to 50 vol.% in demineralized or softened water. Concentrations above 65% should be avoided.
- Is compatible with traditional coolants of traditional quality. Lifetime of the product is 5 years 250.000Km, depending on which situation occurs first.
- The composition of the product is different compared to other coolants, results obtained with a refractometer can be different causing an incorrect frost protection. Percentage(Vol):25,30,33,40,50 Protection(°C):-11,-16,-18,-26,-37

Exceeds the following performance requirements:

- VW-TL 774 J (G13)

Better engine oils
Power to protect. Power to perform.

TYPICAL ANALYSIS:

Colour Purple		
Density at 20°C	1.12 kg/l	ASTM D 4052
Flash point	110 °C	ASTM D 93
pH	8.35
